

PLATINUM RAIL P U B L I C A T I O N S

Dear Hobby Shop,

Once again, I would like to thank all of you for supporting *N-Scale Magazine*. Over the past year, as you know, the United States Post Office has increased its rates once again. Not only was there a rate increase, but there was also a change with regards to all periodicals. The USPS no longer allows magazines to ship second class to Canada or any foreign country, leaving only first class as an option at a very high rate. I have found a way around this through my printer. The Canadian magazines are now being trucked directly into Canada from where it is printed in Midland, Michigan, and all foreign copies are dropped at a major distribution point and then trucked from there. This has helped to keep costs down somewhat. Unfortunately, there was also an increase in printing and paper costs. Therefore, I have had to increase the cover price of *N-Scale Magazine*. I am always looking at ways to keep costs down, passing it along to my customers, and will continue to do so. Although when it comes to shipping costs, I think we're all in the same boat. Again, thank you for your continued support and understanding. New pricing will take effect with the January/February 2008 issue.
